**ONE OF THE LAST AUSSIE COUPE ICONS
XC COUPE 07/1978 RARE FIND -
AFFORDABLE INVESTMENT**

ANY ENQUIRIES - CALL ME 0438 823 377

Needless I say, that this is next to the Coupe GT's this is still one of the hardest coupes to find, with only 2200 made, half ended up in wrecking yards and the other half here and there, today it make this an affordable investment not to miss.

If you're looking for a great body to start, look no further. No matter what your plans are with a coupe, this can accommodate any needs. The is nojypical rust in the roof valleys, rear window sill, door sills, doors and boot valley corners.

I spent 3 years looking for the right coupe body, this was the one. This XC originally had a Supercharged 351,1 have taken the engine out.

Like many people's dreams I had major plans to do a custom XC coupe. With that goal now closed, I have to unfortunately sell the car.

This coupe is ready and all it needs is an engine, extractors and a radiator to get it going again. If you're into a show car finish then you would get some minor rust, chips, dents and scratches repaired first, and then respray accordingly (as shown in the photos below). Door belt rubbers could also do with a new set. And the Engine bay could do with a refresher before putting your engine in. Also, the car drove firm with no squeaks and rattles.

This XC Coupe features:

- All Original keys, one key does ignition & both doors, all locks work excellent.
- Doors close flush with the body.
- Original ford Y colour- 2 pack Fire Glow Red. Car was painted 4 years ago, very minor Rust was removed thus the excellent current condition, even though it spent 1 yr outside with a Tarp.
- Approved LPG conversion, has tanks, lines, regulator etc... (use it or sell it)
- Near new Bilstein front and rear shock absorbers, with heavy duty professionally lowered front springs and 2" rear lowering blocks.
- **New wiring throughout with Dlack plastic inaulaliun wjver**
- Colour coded bumpers and door handles

- Near new walker mufflers and 2 1/2" pipes , missing small section of the end pipes to the tail pipes.
- GXL Bonnet cut out for a 67/1 supercharger, trimmed in chrome
- WHEELS & TYRES - classic 12 slots 14x8" upfront with 245/50/14 TA Radials & 14x10" at rear with 265/50/14 TA Radials, the wheels have addition centre plates welded internally for added strength.
- Genuine GT rear 1/2 side scoops
- ~ Brand New O'Briens professionally fitted front windscreen
- ~ GT Petrol cap
- ~ GXL bonnet
- ~ GXL dash instrument panel
- ~ GT honeycomb panel
- ~ Rear windscreen with demister (rare find)
- ~ Near new Pioneer 3 way rear 6x9 speakers, colour coded red grilles
- ~ Pro Ratchet B&M shifter
- Freshly rebuilt C4 Transmission, with stage 2 shift kit and 3200 stall converter
- ~ BW disc rear end
- ~ New taillight lenses
- ~ Square headlight front end, I have available GS round headlight grille and lights in very good condition. (Not included)
- Interior is fully retrimmed black velour, including the roof lining and sun visors. Then cars cabin is whisper quiet because of the velour. The seats have red seams to match the car's exterior, the word FORD is embroidered in the front seats. New black carpet, the dash was also reupholstered. There is nothing to spend on the inside.
- ~ MOMO racing steering wheel with black leather trim
- ~ The Blue good quality TARP comes with the car (there are some tares that can be stitched up
- ~ You will notice that the car was very low on some pics, I have since raised it to get better ground clearance.

There's probably more but I will let you ask some questions if need be; please see the photos for more details. (I have many more pics, please email me if you want to see more).

Please note: I have the right to end this auction early as the car will be advertised elsewhere.

Good luck and Happy Bidding!

On 23-Oct-06 at 18:16:56 AEST, seller added the following information:

Note: Due to many questions, i have added the following information

I dont know why but the reserve price didnt show up on the listing. Due to many enquiries, kindly please do not call me to ask how much i will take for the car. I will let it run its course.

appologies, I have also noted a 3rd section of small bubbles of rust on the bottom right rear boot sill, nothing major.

I want to confirm the car doesnt come with the engine, it comes with the transmission and diff.

Many people are asking, what does it need doing? As im fussy, i would respray the front 2 guards, bonnet passagner side sill, do the rust repairs awss shown in photographs and respray the engine bay. In the meantime i have removed the pass side rear window regulator as it needs some welding, i will explain to the buyer what i mean.

hope this help clarify's some Q's.

happy bidding!

On 23-Oct-06 at 18:40:20 AEST, seller added the following information:

Hi Folks,

To make it fair for our all our fellow ebayers, the car will not be available to non bidders for viewing.

thanx
